

R1900 Series 5G Ruggedized Router

High-performance 5G router for the ultimate in-vehicle network connectivity

WAN Connectivity: 5G & LTE Cat 20

LAN Connectivity: Wi-Fi 6, GbE, BT 5.1

NetCloud Solution: Mobile Performance

The R1900 Series router was built from the ground up to handle high-performance mobile 5G connectivity and edge computing. Purpose-built to withstand extreme environments, the R1900 is an all-in-one mobile networking solution ideally suited for installations within a wide range of vehicles including metro transit buses, school buses, commercial fleets, as well as first responder vehicles such as police, fire, ambulance, and mobile command trailers.

The R1900 is part of a NetCloud Mobile Performance Package. Cradlepoint NetCloud provides connectivity, network, security, location, and IoT services to connect everything in the vehicle, while providing access to IT for remote management, troubleshooting and analytics. When coupled with the Advanced Mobile Performance service plan, you gain full suite of security and AVL capabilities including threat management, web filtering, application visibility, analytics, and advanced GNSS/GPS functionality including location tracking and cellular coverage maps.

Key Features:

- Deploy the ultimate 5G NR / Cat 20 LTE mobile networking solution with industry-leading features
- Add a second cellular modem with the optional RX30 managed accessory for simultaneous dual-carrier connectivity
- Take advantage of Wi-Fi 6 for the best possible connections
- Integrate into AVL systems with discrete GNSS and dead reckoning
- Extend your deployment with powerful edge compute capabilities and container support
- Enable unified edge security with application aware multizone firewalls, IDS/IPS, and Internet security
- Define policies through centralized cloud-based management for easy deployment at scale

NetCloud Comparison for Mobile

NetCloud Service for Mobile provides the enterprise capabilities that organizations need to manage their in-vehicle work and includes:

- Centralized endpoint management with insights and visual analytics
- 24×7 enterprise support and limited lifetime warranty
- On-demand training with Cradlepoint University
